Design Guidelines

- Simplify styles by removing any unnecessary elements to emphasize the most critical content.
- Incorporate familiar design patterns and layouts to ensure users can navigate the interface intuitively.
- Make call-to-action buttons like "Download CV" stand out by using attention-grabbing colors, larger sizes, and strategic placement.
- Clearly indicate active elements, such as navigation links or form fields, through distinct visual cues.
- Maintain strong contrast between text and background colors to comply with WCAG accessibility standards.
- Use meaningful and descriptive labels for navigation links to improve clarity and usability.
- Use Teal (#754EF9) as the primary brand color and apply lighter or darker shades for hover or focus effects.
- Adhere to the designated font style (Inria-serif) and follow the specified font sizes for headings and text across the design.

Typography

	SIZE
HEADING 1 FOR DESKTOP	40PX
HEADING 1 FOR TABLET	32PX
HEADING 1 FOR MOBILE	24PX
HEADING 2 FOR DESKTOP	32PX
HEADING 2 FOR TABLET	24px
HEADING 2 FOR MOBILE	20PX
HEADING 3 FOR DESKTOP	16PX
HEADING 3 FOR TABLET	16PX
HEADING 3 FOR MOBILE	15PX

Spacing

XS	S	M	L
8Pt	16Pt	24Pt	32Pt

eden.

About Me

I'm a Software Engineering
student who loves coding and
exploring how software can solve real-world problems.

My Journey
Started with curiosity and led to passion.

Current Goals
To master software development and contribute to meaningful projects.

Why I Love Coding
Because it combines logic, creativity, and impact!
